Getting Started

Log into Admin 365 Portal

- Customer with the existing credential for MAC can login *(No separate credential required for Microsoft hardware portal)*

Go to the left menu bar

- Click "Support" then "Microsoft hardware support"
- Three tabs will appear on the right – Overview, Warranty and Repair

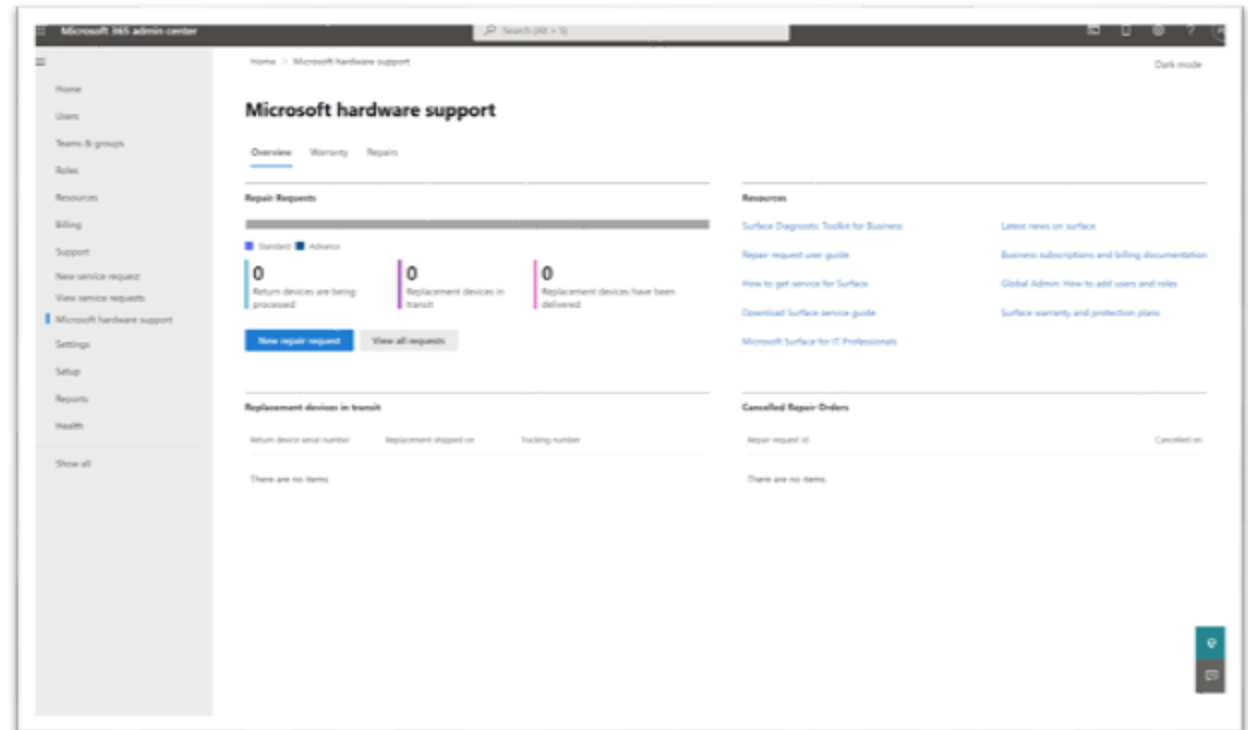

Overview Page

Overview page allows you to start a new repair request

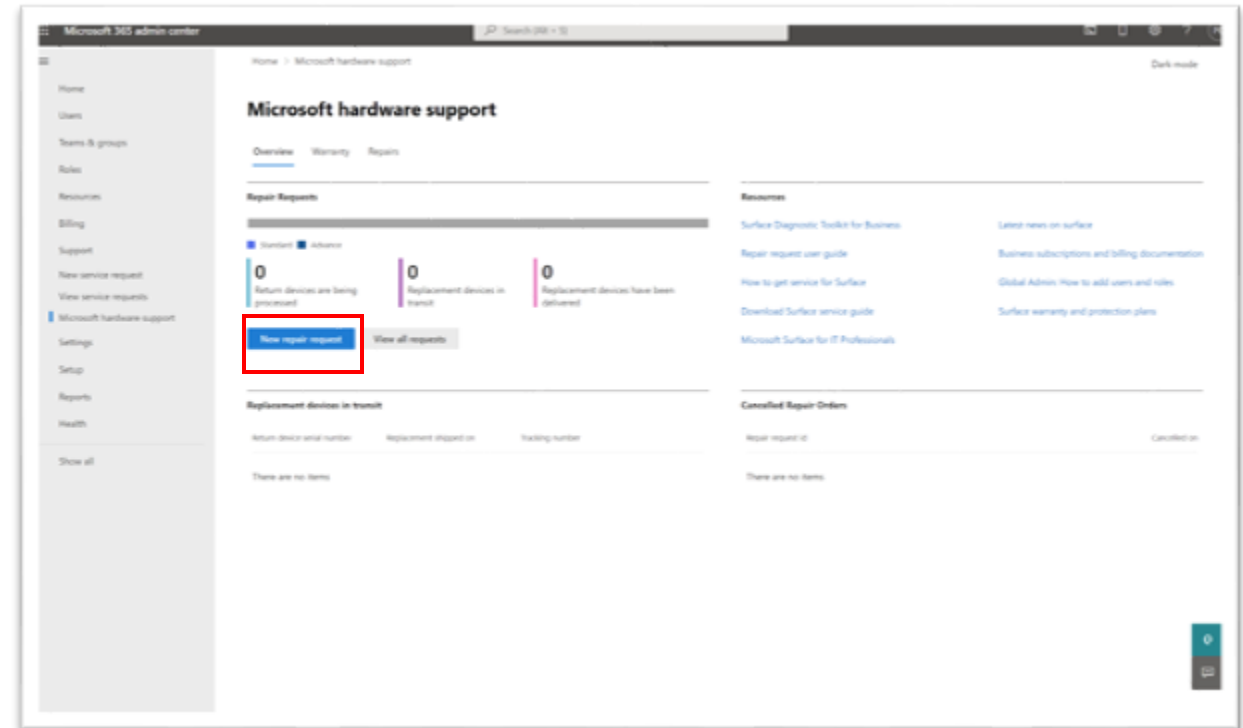

This page also shows the status of your repair requests for standard and advance exchange orders including:

- Details of return process for devices
- Tracking numbers for devices in transit
- Cancelled repair orders
- Details for all requests

New Repair Request

- A new repair request can be completed using this link for one, or multiple repairs
- Going into this link will start the repair request process
- The repair request is a self-serve tool for hardware returns for devices either:
 - Under warranty (advance)
 - Not under warranty (standard)
- A user can start a new repair from the Overview, Warranty or Repair pages

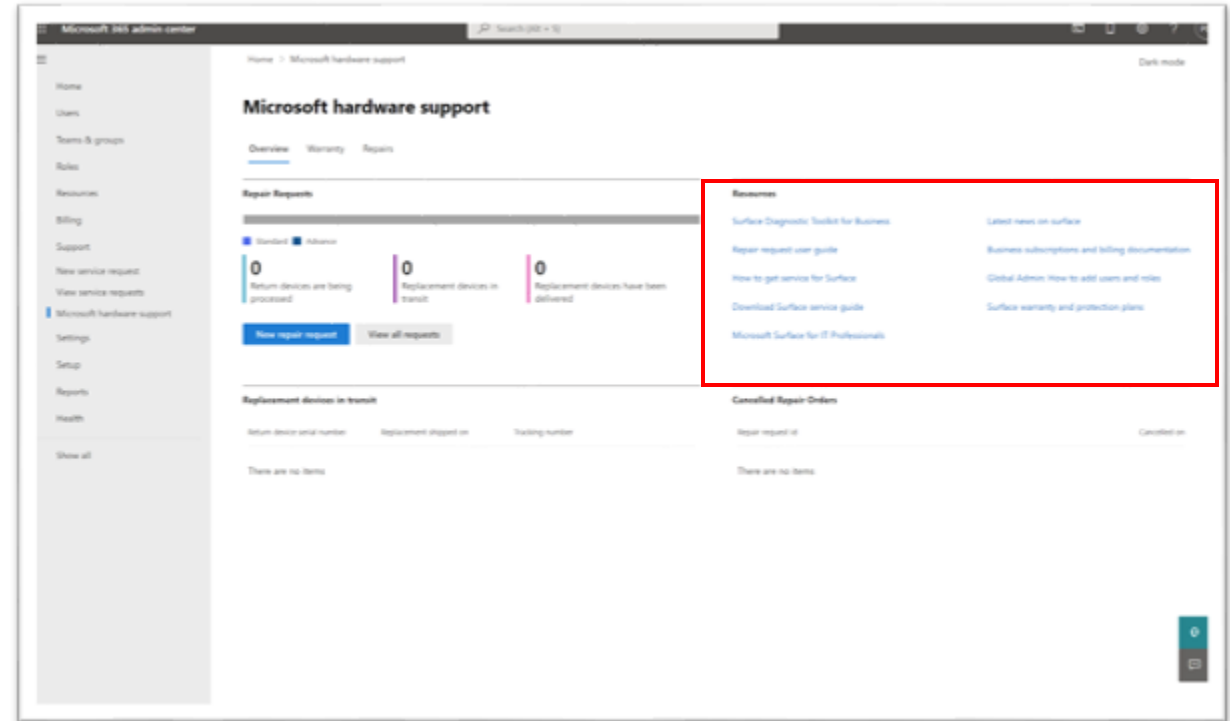

Note: How to process the repair request is provided in more details in the proceeding section

Resources and FAQs

The resource page shows helpful tools and FAQs to manage your devices including:

- Diagnostics toolkit
- Repair request user guides
- Service guide for Surface
- Training for the Hardware Support Portal
- Tips for working in the M365 portal
- Warranty information
- The latest news on Surface

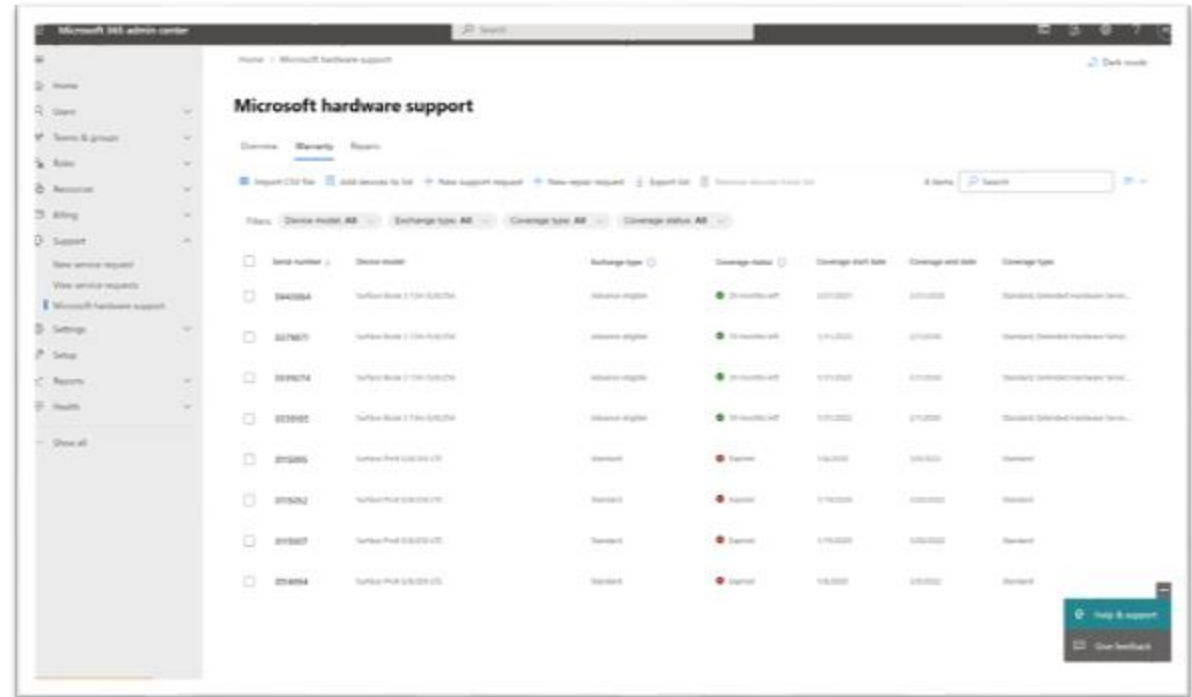

Warranty Page

You can upload serial numbers to view device warranties, for one device, or multiple devices using the import feature

This page allows you to see everything about your device warranty including:

- Time left on the warranty
- Coverage type
 - Standard hardware warranty
 - Advance exchange warranty
 - Purchased add on warranty
- Exchange type
 - Advance exchange eligible are devices under warranty
 - Standard exchanges are devices not under warranty or same unit repair eligible

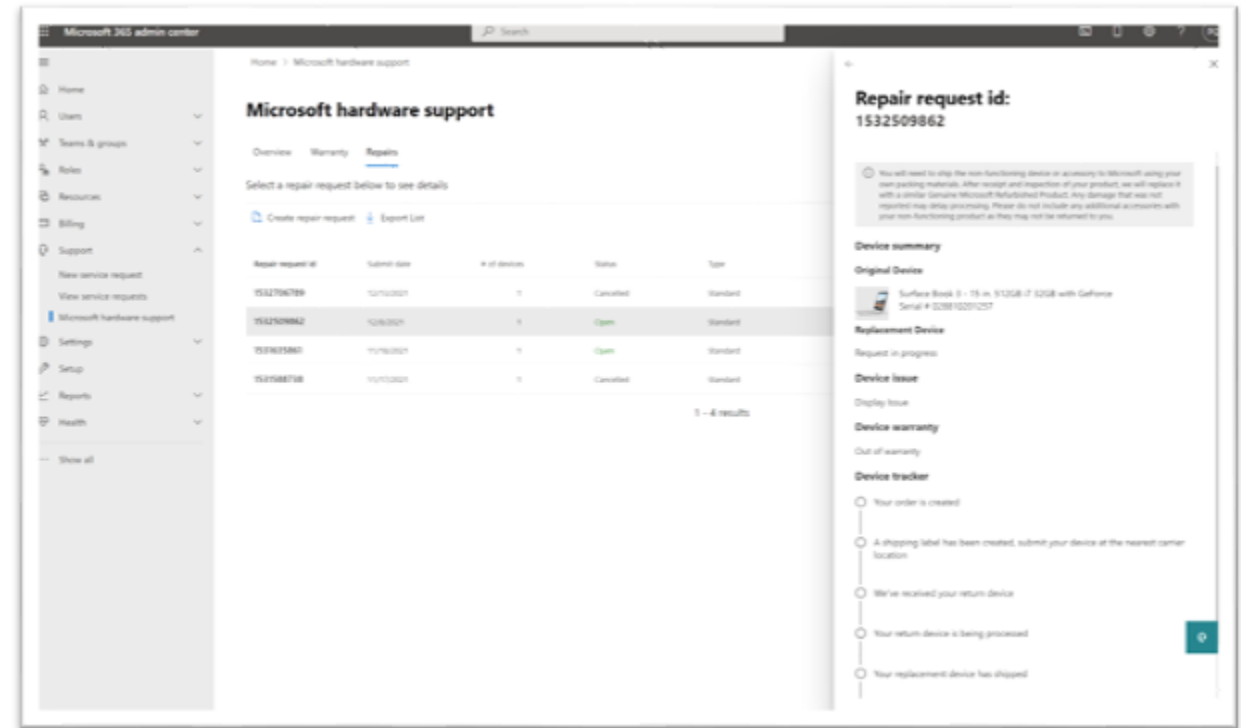

From this page you can also chose the devices to start a service or repair order

Repair Page

The repair page shows detailed information for your repairs for open, closed and canceled returns

- Click the repair ID number to see detailed information on the repair including:
 - Detailed information on the return
 - Status of the return
 - Warranty information
 - Device tracker
- User can filter the repair request by type (Open/close/ standard/advance)
- User can export a list of repairs to a CSV file
- A new repair request can be started from this screen

New Repair Request

This screenshot shows the 'Add devices' step of the repair request process. On the left, a progress bar indicates the current step. The main area is titled 'Add devices' and includes a section for 'Add devices by entering the device serial number' with a text input field and a 'Get device' button. Below this, there's a section for 'Where can I find it?' with a text input field. On the right, there's a section for 'Device model' with a dropdown menu and a 'Get device' button. At the bottom, there's a section for 'Purchase order number (optional)' with a text input field.

Add devices:

- Choose whether to submit one device or upload multiple devices (using CSV upload)

This screenshot shows the 'Confirm your shipping address' step. It features a progress bar on the left. The main content area is titled 'Confirm your shipping address' and includes a section for 'Confirm your shipping address' with a dropdown menu and a 'Get device' button. Below this, there's a section for 'Where can I find it?' with a text input field. On the right, there's a section for 'Device model' with a dropdown menu and a 'Get device' button. At the bottom, there's a section for 'Purchase order number (optional)' with a text input field.

Confirm your shipping address:

- Chose a shipping address or add a new address
- Add Tax or VAT ID (for European customers), if applicable

This screenshot shows the 'Tell us about the issue' step. It features a progress bar on the left. The main content area is titled 'Tell us about the issue' and includes a section for 'Tell us about the issue' with a dropdown menu and a 'Get device' button. Below this, there's a section for 'Where can I find it?' with a text input field. On the right, there's a section for 'Device model' with a dropdown menu and a 'Get device' button. At the bottom, there's a section for 'Purchase order number (optional)' with a text input field.

Tell us about the issue:

- Based on the issue, and if under warranty an offer will be displayed
- Advance exchanges can be done in bulk
- Standard exchanges must be done separately

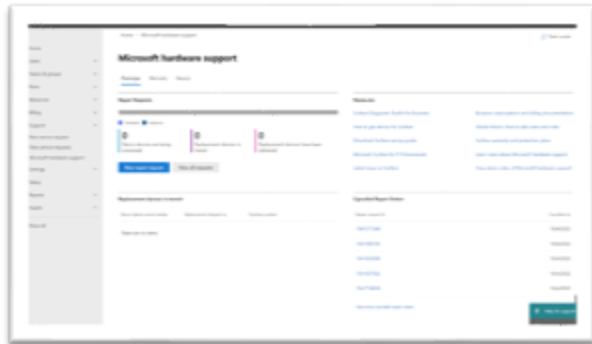

This screenshot shows the 'Submit your request' step. It features a progress bar on the left. The main content area is titled 'Submit your request' and includes a section for 'Submit your request' with a dropdown menu and a 'Get device' button. Below this, there's a section for 'Where can I find it?' with a text input field. On the right, there's a section for 'Device model' with a dropdown menu and a 'Get device' button. At the bottom, there's a section for 'Purchase order number (optional)' with a text input field.

Submit your repair request:

- Shows instructions for return
- Billing address
- Mailing address
- Details of return

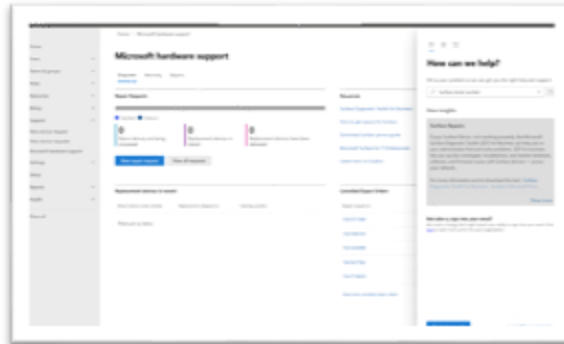

Support Requests

Getting help for your devices is easy using the support request feature

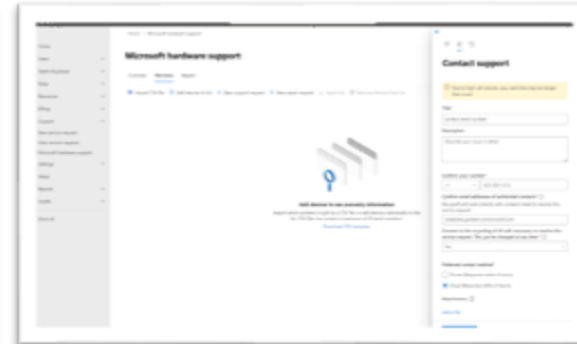

Access help and Support:

- Use the link on the bottom right of your screen to access help and support

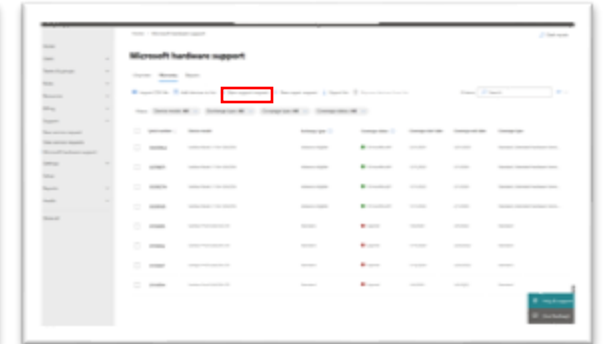

Add serial number to get to the right help and support:

- View insights on your device
- Search help online
- Get help from a customer service representative by contacting support

Contact support:

- Add information about the device including the issue
- Select how you would like to be contacted
- Submit support request
- Customer care will contact you directly

Create a support request directly from the warranty page:

- See which devices are still under warranties
- You can create a support request for one or multiple devices

How can customers get started?

System requirements

To use Microsoft Hardware Support Portal, customers will be required to have a M365 account.

Access

You may already have access to this platform if you have an Intune account. Click the support node on the left side of the platform and look for Microsoft Hardware Support.

Availability

If you do not yet have access to the portal, please sign in to your M365 Admin Center and then register to use the platform by using the following link [here](#).

Assign user roles

Follow the instructions below to assign user roles to you and your team and start using the platform!

Please view the Microsoft Hardware Support [Demo](#) to see what it can do for your business

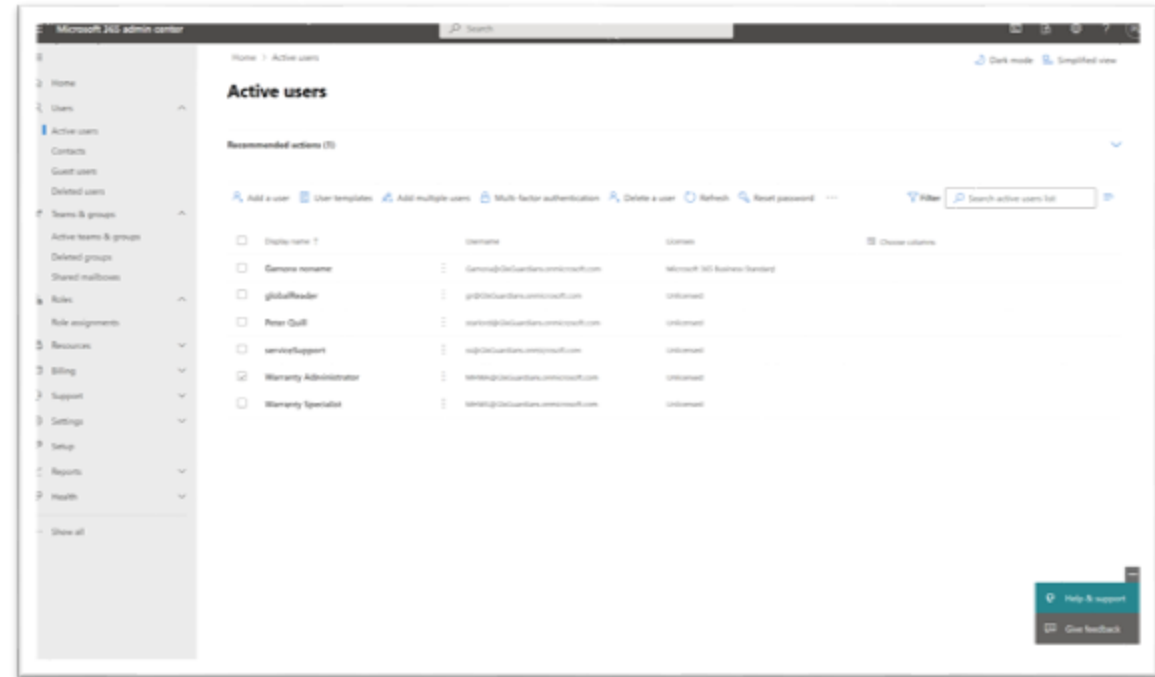

Global Admin: How to Add a User?

Getting Access to M365 Admin

These are the steps to obtain user access

1. Go to M365 Admin Center homepage, choose **Users** in the left-hand navigation under users, choose **Active users**
2. Located in the options bar, choose **Filter**
3. Chose **Global Admins from the filter list**
4. Choose a user by clicking on their **display name** to view account details, including their email address
5. Email your global admin for access

Please visit [Overview of the Microsoft 365 admin center](#) for more information. See image to the right on where to go for specifics on admin role details.

Roles available in M365

Different roles available in Admin Center:

- **Global Admin:** Need global access to management features and data
- **Service Support Admin:** Users who need to open or manage service requests and view or share message center posts
- **Billing Admin:** Assign to users who need to make purchases, manage subscriptions, manage support tickets, and monitor service health
- **Global Reader Admin:** Assign to users who need to view admin features and settings in the admin center that the global admin can view

New

Microsoft Hardware Warranty Admin: IT professionals who need global access to all features and data

New

Microsoft Hardware Warranty Specialist: Assign to IT professionals to create and manage repair and support tickets

Who can use the site and what access levels do they need

Admin Personal	View Service Requests	Create/Manage Device Replacement Request	Add/Edit/Delete Ship to Address
Global Admin	Yes	Yes	Yes
Service Support Admin	Yes	Yes	X
